

PHYSIOTHERAPIST - CAMPBELLFORD CLINIC

Want to be part of a great environment?

We have a full or part-time opportunity at our thriving clinic in Campbellford. Ours is a client-centred, best practice environment located in the Campbellford Medical Centre, directly across from the hospital.

This is an opportunity to practise, live and find balance in the beautiful Trent Hills region.

Less traffic, more trees

Less pressure, more time with clients

Less structure, more freedom

Work with a collaborative, enthusiastic, multi-disciplinary team offering a creative continuum of rehabilitation interventions with up-to-date equipment and a large gym. Explore other aspects of physiotherapy practice in the region, if desired, by also working at Therapacc's other community-based programs.
